News Release

Entergy and Utility Workers Union of America, Local 1-2 Extend Negotiations

Rye, N.Y. – Entergy and the Utility Workers Union of America (UWUA) Local 1-2 agreed Sunday night to extend contract negotiations for the union's approximately 430 workers at Indian Point Energy Center. Negotiations will resume Monday at 11:00 a.m. The existing contract expired at midnight Sunday but both parties agreed to continue negotiations.

"This extension allows workers to stay on the job and demonstrates the progress we have made in closing the gap toward a final contract that is beneficial to the union, its members at Indian Point and Entergy," said Indian Point site vice president Joe Pollock. "I look forward to continuing our good-faith negotiations with Harry Farrell and the UWUA and ultimately achieving a final agreement in the near future."

Indian Point Energy Center, in Buchanan, N.Y., is home to two operating nuclear reactors, Unit 2 and Unit 3, that generate about 2000 megawatts of electricity for customers primarily in New York City and Westchester County.
